	Examiner Peguy JeanPierre	Art Unit 2819	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: The first page of the specification must include the following statement: "This application is a CIP (continuation-in-part) of application serial number 10/453,369 filed on 06/03/2003."

3. It is suggested that the serial numbers of the "Cross Reference To Related Applications" be provided in response to the office action.

Appropriate correction is required.

4. The disclosure is objected to because the "Summary of the Invention" is essentially a verbatim repetition of claim 1. There is no need to repeat that which can be found elsewhere in its entirety. The purpose of the brief summary of the

Art Unit: 2819

invention is to apprise the public, and especially those interested in the art to which the invention relates, of the nature of the invention; see MPEP 608.01 (d).

Claim Rejections - 35 USC § 112

5. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, line 14, the term " the common mode bias" lacks antecedent basis; line 15 the term " the first and the second outputs" lacks antecedent basis. the same rejection also applies to claim 11.

Allowable Subject Matter

6. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach a differential comparator having positive and negative inputs and positive and negative outputs that comprises inter alia, a first resistor load disposed between the positive output and a supply reference opposite in polarity to the a supply current, a second resistor disposed between the negative output and a supply reference, a bias circuit that controls the voltage on the positive and negative outputs at the first and the second resistors to be at a common mode voltage that is controlled by an external bias voltage when the positive and negative inputs are at substantially the same voltage.
